our government over these countries. —In what I am saying I wish it understood that I am not challenging anything that the president has said. I believe he meant what he said at Mobile in regard to the American flag. That is what we have said ever since Thomas Jefferson annexed Louisiana. I believe that if the American flag ever goes up in Mexico it will never come down.

Reinforced by his forces of blue jackets and marines prepared to assist them in the restoration of civil government. He added that the American armed forces officials were

invited and urged to return to their posts.

## ASSESSING LOCAL IMPROVEMENTS IS FINALLY DECIDED

Will Recommend Council that Assessment on Completed Work Be Cancelled.

### ESTIMATES MUST BE IN BEFORE JULY 1ST

Money Raised for Some Improvements on Which Work Not Yet Started.

City Engineer Laramée, City Treasurer, Auditor, and City Assessor met with the city commissioners, city solicitor and deputy commissioners of finance yesterday afternoon to consider the question of assessing 1912 and 1914 local improvements. The question of 1912 assessment was gone into at some length. Last year the method was by special resolution to assess the estimated cost; that is to say, if a particular piece of work was contemplated the city engineer would give an estimated cost of the improvement and the money would be assessed and the assessment made for that amount, stated C. L. Richardson. The difficulty will arise when the actual cost of the work is known and the property owners have to make up or receive a refund of the difference between the estimated cost and the actual cost.

City Assessor Winter pointed out that the city engineer makes the money for improvements has been raised but the work not started and if the actual cost was not ascertained before July 1, the assessment would have to be made up the estimated cost for another year and the property owners would have a just right to object against it.

The commissioners passed a resolution recommending to council that the estimated assessment on work that had been completed be cancelled and a new one made on the actual cost.

They also directed the commissioners to pay the property owners to pay the tax on the property.

The 1914 assessment will be based on the actual cost of the improvements.

#### Condemned by Juv.

Toronto, April 23—After eight sessions during which 18 witnesses were examined, the coroner's jury, investigating the fire at Woodbine hotel on March 17, whereby five lives were lost, returned a verdict late last night. They found the cause to be an inflammable material in the construction of the hotel and the obstruction of the fire escape. No evidence was adduced as to the cause of the fire and it was classified as "unknown."

#### Will Not Use Can.

Toronto, April 23—The stories stated yesterday that steamers engaged in the New York and Boston trades would not use the Panama canal, although the route would be 800 miles shorter than via Cape Horn, because the extra cost of refrigerating in the "hot water zone" would more than outweigh the savings in distance.

# DECLARES CHRIST WOULD HAVE CARRIED A BANNER IN I. W. W. PROCESSION

**MAYOR M'NAMARA SAYS CHURCHES LACK CHARITY**

Were Totally Indifferent to Hunger Pangs of 500 Men Out of Work.

**CARE NOTHING FOR MAN IN OVERALLS**

Using Shelter of Pulpit to Attack Organized Labor.

A striking indictment of the Edmonton church was made last night by Mayor McNamara, speaking at an anniversary banquet of the Unitarian church. The mayor strongly charged the clergymen and their parishioners with indifference to the interests of the poor and to the sufferings of the unemployed in the city last winter, declaring that of thirty-fourty clergymen in the city only one—Rev. Mr. H. C. Nettleton—showed the slightest interest in helping to alleviate their condition.

"We guided as many of the L.W.W. leaders," declared the mayor, "we received more help from them than we did from the clergymen and other do-gooders."

"Instead of looking out sarcastically from the hotel windows and scoffing while the L.W.W. parades were going past, I think the clergymen would have been in the parade and probably carrying one of the banners."

"Our governments and our railways are advertising for labor, and when the come to the country, and when the come and go out to work on the grade to return after several months' hard work with a few dollars in their pockets, the men and their wives are rolled instead of going after the scoundrels who rolled them, our police get hold of the victim and it is sent to the prison farm. When he comes back to town he naturally has harsh feelings against us."

**Churches Indifferent.**

"All the clergymen did not do a thing to help the few men who were starving last winter right here in our midst. As long as you have that attitude how do you expect the attending men of the ministry to attend the churches. That is where I raise issue with our churches. They must look more to the welfare of the community than to themselves, not all right for the well fed and well clothed men, but the churches neglect the man who is down and out and has nothing but great appeals to go to church in, I say the churches should go to the people."

**Pulpit Politicians.**

"On one of the last occasions the churches of this city have taken part in municipal politics, but they seem to have got it wrong. It takes a very broad man to speak from the pulpit, and when they do, it is a serious offence. We have a clergymen in this city who used the pulpit to vent his spleen against a man, and thereby became a party to a lacerating censure. That is absolutely wrong, and such preachers do a great deal more

harm than good by entering the political arena."

"Before passing from this subject I must pay tribute to one big-minded man who threw open the doors of his church for free discussion from all parties; we had a big session in the Unitarian church, and I think that takes that attitude is on the right track; he did not get into the pulpit and criticize a candidate because he was not a member of the church, but far from doing that, he threw open the doors and said: 'Here are the people; talk to them yourselves.'

**Many Unchurched Men.**

"What justification have we for establishing a new church?" asked Pastor Trotter. "There are already 150 Protestant, 13 Methodist, 12 Anglican and nine Baptist churches, as well as numerous other smaller bodies of other denominations. I say that there are a decent body of unchurched men, a great body of unchurched women and many who are neither irreligious nor immoral who are seeking for some church which will allow them to remain in the church in name of religion."

These are largely laboring men and workers who are thinkers and in themselves are too brave to think so openly in a week that they cannot think on Sunday."

**Discussions in Forum.**

Mr. Turner, leader of the Forum, spoke of the ideals of the movement, which he often refers to its basic principles: "Character, altruism, the love of progress and freedom." He asked for more help in the movement. Next month he will return to its banner.

Afterword, Rev. Mr. Wattie, Minister, and Mrs. Wattie, his wife, Professor Alexander presided. Music was supplied by Miss Hazelhurst, Miss May, Miss McLean, Miss Hazelhurst, Mr. Chever, Mr. Hassell and Mr. Stiles. The banquet was excellently served by the management of the Yale hotel. About 100 people sat down.

**DIDSIBURG BUILDING BIGGER AND BETTER TOWN THAN BEFORE**

Didsbury is fast recovering from the disastrous fire which swept through the town about a year ago; in fact it has already started to build up bigger and better than ever, says Charles Baker, of that place, to the Capital this morning.

Mr. Baker while in the city expects to let the contract for a modern, new fire-proof building in Didsbury. It will have hot and cold water, and all the rooms, steam heat and all modern conveniences and is typical of the modern town. The changes are all right for the well fed and well clothed men, but the churches neglect the man who is down and out and has nothing but great appeals to go to church in, I say the churches should go to the people."

## WILL RECOMMEND DROPPING ALL OF 1914 PAVING WORK

**Mayor Says Luxury Compared with Such Utilities as Sewers and Water.**

**ESTIMATED SAVING TO BE \$1,000,000**

Will Make Easy for Next Year's Administration—Characterized Far-Sighted Policy.

Like a bolt from the blue came the marks of Mayor McNameara to the members of the municipal commissioners who were gathered to hear the news of the 1914 paving program at yesterday afternoon's meeting of the city commissioners to the effect that the city would be saving \$1,000,000 by a special meeting to be held this evening that all paving be left off for financial reasons.

**Long Periods Difficult.**

"I cannot state definitely as to when it is necessary of an indefinite character when a period of 12 months is to be considered," stated the mayor, "but I have no doubt that if it followed that temporary loans would have to be made until July 1, 1915, and it would be difficult to have the money to pay so far ahead as to be able to give full assurance that the city could be improved in addition to that required for current expenditure."

**Police Building Also.**

One of the aldermen stated when he heard the news that the commissioners had voted to postpone the paving work until next year that the paving would be left off for financial reasons, as the paving program for 1914 is dropped, for don't you see the saving in temporary loans and financing will be \$1,000,000. If the commissioners adopt these recommendations, as they did at their special meeting."

If the commissioners adopt these recommendations, as they did at their special meeting."

**Some Curtailment Necessary.**

His worship asked the city commissioners, therefore, to defer the paving work until next year when numbers of the council have stated their pleasure. The paving where the money has been provided for but not for the paving work last year, will be gone with this year.

The commissioners decided, in view of the statements of the financial commissioners, to ask the council for further instruction before taking any action.

Major McNameara stated that he would not be able to advise in inaction with concrete paving, but when it was pointed out that this program was comparatively small, he announced to the contractors that the awarding of the 1914 concrete walk paving would be made tomorrow morning.

**Some Curtailment Necessary.**

His worship in an interview with the *Capital* yesterday morning said that it was his desire to recommend to the council a partial curtailment of the program of capital expenditure for the current year. "This is a year of general curtailment and no large increases in the budget," he stated. "The program—that there will be no increase in the budget for the year, he said.

After the game Sharp gave an exhibition of fancy shots that pleased the large crowds.

NO BETTING YET  
ON NEWMARKET  
RACE NEXT WEEK

London, April 22.—There is no betting of any account yet on the two thousand guineas, the first classic race of the season, run a week today, at Newmarket, and the list of starters is still in doubt. The question is, when a decision will be reached as to whether the Derby favorite, The Tetrach, will be among the starters, and on this announcement hinges the wagering.

Larry Cheney With Nationals.

Chicago, April 22.—Larry Cheney, pitcher, now remain, the Chicago Nationals having signed a three-year contract with the team. It has reported that Cheney was considering an offer from the Federals.

## OUIMET FEARED BY BRITISHERS IN GOLF MEETS

American Open Champion Is Expected to Make Good Showing.

An English sporting writer who saw the golf tournament at Brookline, Mass., last September, says that while he realizes Francis Ouimet's strength, he does not believe England has generally approached the prowess of the young American.

"The advent of Ouimet, of course, is regarded with exceptional interest," he said, "but British golfers generally do not believe that the young American champion is, so little fear, is entertained that the British champion will go west of the country."

"The golfers who were at Brookline in September, however, are more apprehensive, because Sandwich, although considerably altered since Travers won there some years ago, is still considered one of the best courses in the world."

"Those at Brookline were greatly impressed with Ouimet's wonderful skill in placing tee shots. The thing which impresses them most is the temptation to play too much serious golf before the big competition."

"Good juries who saw him in the American championships consider that staying power is not one of his strong points."

After his arrival at Liverpool in October, he was at the neighboring Hoyland course and gradually work his way to Sandwich, where even if he is unable to make good in the competition, he will be a favorite to win the Royal St. George, he showed with the Royal St. George cup, one of the premier stroke competitions among amateurs. English golfers think he is at his best in playing for the love of the game.

Ouimet's First Round.

English newspapers are devoting much space to Francis Ouimet, the American who already has made a name for himself in England, and think that he is swift enough when they are off the tee. They have suggested that he be presented with bicycles to the amateur golfers of Wimborne. From present appearance, it would seem that their only chance of getting the same is by buying themselves.

Within two weeks the sloop Resolute, one of the three defenders built for the defense of America's cup, will be launched at Bristol, and the English papers expect that he would shape up after his long rest from practice. That he needs very little practice to get into form is shown by the fact that he has made the course in 81 strokes, a remarkable performance in the face of a stiff wind.

Atlantic City Bowling.

Atlantic City, N.J., April 22.—Low scores marked yesterday's play at the meeting of the National Bowling association, not a change being made of the leaders of the three classes.
